

Singles Out

Singles Out is a new activity group for Parksville Newcomers who are single and want to get out to discover our community, take in events or activities, and enjoy some company, too.

Members of this group agree to having their email address shared within the Singles Out group. Because, when one of us is interested in something, such as, an upcoming concert, we email the group and see if any other members are interested in going too. It could be a lunch, movie, winery, craft fair, just about anywhere you can think of to discover, see or do something fun.

We all make suggestions to the entire group. You may get one person or several people interested. If tickets are needed in advance to attend an event, each person can buy their own ticket. Or if seats are assigned, then that can be coordinated between the people who plan to go. On the other hand, there's the possibility that you may not get anyone available to attend with you, but throwing out the suggestion is the only way to find out.

There may also be some occasions where we try and get the whole group together, for example, a potluck lunch at someone's home, or group picnic at Rath Trevor.

To become a member of Singles Out, and be added to the email list, email the coordinator, Betty Koch at dremer201@gmail.com.
